## EXPERIENCE - Full Time

### [PeopleGrove](#), Remote — SDE II

Sept 2020 - PRESENT

NodeJS, ReactJS, SailsJS, PostgreSQL

**Product:** Helps institutions bring personalized, mentor-focused communities to students and alumni from enrollment to long after graduation.

- Implemented bulk email service using [Postmark](#), replacing [Sendgrid](#) for cost reduction.
- Implemented an access control management tool for admins.
- Worked on features like groups, programs, and career paths.
- Icons Audit: Migrated icons from codebase to CDN to reduce overall bundle size.
- Designed a widget enabling users to ask questions, utilized the ChatGPT API to generate specific queries, and directed them to relevant experts for responses
- Developed migration scripts for seamless user data updates at scale.
- Collaborated with the design team to address platform-wide accessibility issues, ensuring compliance and securing accessibility certification.

### [Successive Technologies](#), Noida — Full Stack Developer

July 2018 - Sept 2020

MERN, MeteorJS, GraphQL

**Product:** [marketcube.io](http://marketcube.io) - a SaaS-based marketplace to boost customer engagement and retail experiences.

- Developed multiple features like notification manager, orders/payments export, dynamic invoice, and packing slips, invitation manager, and shipping management models.
- Developed the base structure of the new Apollo-UI app.
- Developed functionalities like CMS and Feature Flagging from scratch.
- Led a team of 13+ developers to enhance the performance by replacing Meteor with GraphQL.
